

# Diabetic Supplies: Updates to Continuous Glucose Monitoring Systems

---

October 4, 2022

Retroactive to October 1, 2022, specific therapeutic and non-therapeutic Continuous Glucose Monitoring (CGM) Systems are now pharmacy-billed medical supply benefits through Medi-Cal Rx. Specifically, for **Fee-for-Service Medi-Cal beneficiaries**, retroactive to October 1, 2022, CGM claims previously paid as a medical benefit billed on a *Centers for Medicare & Medicaid Services (CMS) 1500* form via a Healthcare Common Procedure Coding System (HCPCS) code must be submitted as a National Drug Code (NDC)-billed pharmacy claim to Medi-Cal Rx. These HCPCS codes will deny for CGM-billed medical claims submitted with a date of service after December 1, 2022.

Coverage will continue to be restricted to products on the [List of Covered Continuous Glucose Monitoring Systems](#), will require a prior authorization (PA) for reimbursement, and is subject to specific coverage criteria. The current Transition Policy remains in effect; no reinstatement date for CGM has been announced. Refer to the updated *List of Covered Continuous Glucose Monitoring Systems* and the *Diabetic Supplies – Continuous Glucose Monitoring (CGM) Systems* section of the [Medi-Cal Rx Provider Manual](#), concerning CGM systems specific coverage information.

- Product addition or inclusion on the *List* does not guarantee supply or individual specific coverage.
- Products deleted from the *List* will no longer be reimbursable, even with an approved PA, on or after the effective date of deletion. The Maximum Acquisition Cost (MAC) and the Maximum Allowable Product Cost (MAPC) for these products are no longer guaranteed.

The following Medtronic CGM products have been added to the *List of Covered Continuous Glucose Monitoring Systems* and are covered Medi-Cal benefits:

**Note:** Corresponding insulin pumps for some CGM devices will continue to remain a Durable Medical Equipment (DME) and billable as a medical benefit billed on a *CMS 1500* form via an HCPCS code. Refer to the DME section of the [Part 2 Medi-Cal Provider Manual](#) on the [Medi-Cal Provider website](#) for coverage and billing information for DME insulin pumps and accessories.

Medi-Cal Managed Care members should contact their individual [Medi-Cal Managed Care Plan \(MCP\)](#) for specific CGM coverage policy, criteria, and reimbursement. CGM is a partial carved-out medical supply; therefore, MCPs can determine if they will continue to provide the benefit themselves or through Medi-Cal Rx.
